Dear Doctors,

We are excited to announce the next webcast in the ACS in Action CME Series, featuring presentations from two leading cardiologists, **Professor Robert Storey** (UK) and **Dr Chan Ngai Yin** (Hong Kong) on **Monday, 17 August 2020**.

This webinar will cover the latest updates in the clinical management of acute and chronic coronary syndromes including ECG diagnosis and the updated European Society of Cardiology (ESC) Clinical Practice Guidelines recommendations.

Agenda

Time	Topic
19:30–19:40	Welcome and Introduction
	ECG Diagnosis for Acute Myocardial Infarction in Patients with Bundle Branch Block (Dr Chan)
19:40–20:05	Interpreting the New ESC Guidelines for Chronic Coronary Syndromes (Professor Storey)
20:05–20:15	Live Q&A (moderated by Dr Chan)

About the Speakers

Professor Robert Storey is Professor of Cardiology, Clinical Theme Lead for Cardiovascular Disease Research and Director of the Cardiovascular Research Unit at the University of Sheffield. He is also the Academic Director and an Honorary Consultant Cardiologist for the Cardiology and Cardiothoracic Surgery Directorate, Sheffield Teaching Hospitals NHS Foundation Trust. He specialises in the management of ischaemic heart disease, including acute coronary syndromes and coronary intervention. He is in the top global 1% of highly cited authors in clinical medicine (Clarivate Analytics), and his extensive publications in both preclinical and clinical research have supported the development of several novel antiplatelet strategies. Professor Storey has served on several steering and executive committees including for the DISPERSE2, PLATO and PEGASUS-TIMI 54 studies, and was a task force member for the 2019 ESC guidelines on chronic coronary syndromes.

Dr Chan Ngai Yin is the Chief-of-Service and Consultant Physician in the Department of Medicine & Geriatrics in Princess Margaret Hospital and an Honorary Clinical Associate Professor of the Department of Medicine & Therapeutics at the Chinese University of Hong Kong. He has taken very active roles in different professional organisations in Hong Kong, and is currently the President of the Hong Kong College of Cardiology. Dr Chan is an all-round cardiologist and has published extensively in the areas of cardiac electrophysiology, interventional cardiology and preventive cardiology in high-impact journals like the *Journal of American College of Cardiology* and *Heart*.

This exclusive live webcast series is part of the ACS in Action campaign initiative, which aims to encourage knowledge and experience sharing across disciplines for the betterment of acute coronary syndrome (ACS) management in Hong Kong.

Upcoming Webinar

Date	Topic
November 9, 2020	Long-term Prevention After an ACS Event

Registration for this webcast is open until Wednesday, 12 August 2020 and requires completion of the form at the link above.
