世界心臟日二零一六

李樹堅醫生

香港心臟專科學院院長暨 世界心臟日2016籌委會主席

Dr. LI Shu Kin

President of Hong Kong College of Cardiology cum Chairman of World Heart Day 2016 Steering Committee

本人謹代表香港心臟專科學院及世界心臟日2016籌委會,歡迎各位參與每年一度的盛事「世界心臟日」, 為推廣心臟健康出一分力。

2016年世界心臟日的主題為「共創護心路 您我應做到」,呼籲公眾應擕手合作,培養良好的護心習慣及選擇有助心臟健康的生活。都市化的生活,如快餐文化、三高的飲食習慣,多坐少運動的文職工作環境,食宵夜及吸煙等,均會增加患上心血管疾病的風險。其實,及早控制高危因素有助預防心臟病,因此要協助自己及家人保護心臟健康,可先從個人生活細節開始,包括低鹽、低糖、低脂及高纖的健康飲食,建立恆常的運動習慣及定期身體檢查等,均有助減低患上心血管疾病的風險。

為了響應世界心臟組織聯會,香港心臟專科學院每年均會舉辦「世界心臟日」,本年的活動內容包括心臟健康嘉年華、環球健步行,繪畫比賽、攤位設計比賽、心臟健康之選、千人齊習急救活動,以及一系列的健康講座,希望藉著這些不同的活動,與社會各界人士,一起為健康心臟打打氣。

最後,本人在此感謝各參與及<mark>支</mark>持世界心臟日的捐贈 人士、贊助機構及參加者對世界心臟日的支持,在此 謹祝各位身心健康,生活愉快。 On behalf of the Hong Kong College of Cardiology and the World Heart Day 2016 Steering Committee, I would like to express my sincere gratitude to welcome you all to participate in our global annual event "World Heart Day" to promote the importance of heart health.

The theme of World Heart Day 2016 is "Empowering people to be heart healthy", which advocates people to develop a heart healthy environment with the right choices from daily life. The urbanization of city increases the chance for citizens to engage in fast food culture, unhealthy diet, sedentary life-style and unhealthy habits like smoking which will increase the risk of having cardiovascular diseases. In order to control the risk factors and protect our heart, we should adapt healthy diet with high fiber intake and less salt, sugar and oil. In addition, regular exercise and body check will also help to reduce the risk of heart diseases.

Hong Kong College of Cardiology has been organizing World Heart Day every year which was advocated by World Heart Federation. Throughout a variety of activities including Heart Health Carnival, Global Embrace, Drawing Competition, Carnival Booth Competition, Healthy Diet Campaign, a large-scale First Aid Lesson and a series of Health Talks, we wish the public will take a step forward to a heart healthy life.

Last but not least, I would like to take this opportunity to thank you for the generous contribution of all participating organizations, sponsors and donors. I wish everyone the very best of health.

孝杨区

肺子祥先生 Mr. George LAM

世界心臟日2016 健康榮譽大使 World Heart Day 2016 Ambassador

陳志要先生 Mr. Stephen CHAN

世界心臟日2016 健康榮譽大使 World Heart Day 2016 Ambassador

共創護心路 您我應做到

Empowering people to be heart healthy

全球都市化的現象有加速的趨勢,估計到2050年,每10人就有7人住在城市裡。然而增長過快或沒有計劃的都市化生活,亦會增加市民大眾患心血管疾病的機會。快餐文化、學校或工作環境提供不健康膳食、吸煙及缺乏運動等因素都增加患心血管疾病的風險。心血管疾病每年導致超過1700萬人死亡,為個人及社會帶來沉重的經濟負擔。其實只要好好控制風險因素,大部分心血管疾病都可以預防。正因如此,「世界心臟日2016」希望鼓勵公眾從個人生活細節上入手,培養良好的護心習慣,共創護心之路。

The world is urbanizing at a rapid pace and estimated that by 2050, 7 out of 10 people will live in cities. But the rapid growth and unplanned urbanization would greatly increase the citizens' risk of getting Cardiovascular Disease (CVD). Fast Food culture, unhealthy foods provided by school and working environment, smoking and lack of exercise lead to increase the risk of CVD. CVD is the world's no.1 killer, responsible for over 17 million premature deaths each year, causing great financial burden to individual and the society. But much CVD can be prevented by addressing different risk factors. That's why World Heart Day 2016 would like to empower people to be heart healthy. Let's make the right choices for our heart health from daily life.

心臟病的高危因素 Cardiovascular risk factors include:

吸煙

Tobacco use

膽固醇:壞膽固醇 (LDL) >2.6 mmol/L,好膽固醇 (HDL) <1.6 mmol/L

Cholesterol: LDL >2.6 mmol/L, HDL <1.6 mmol/L

糖尿病:空腹血糖:≥7 mmol/L;或餐後兩小時血糖:≥11.1mmol/L

Presence of diabetes: Fasting ≥7mmol/L; or 2 hours after meal ≥11.1mmol/L

高血壓:上壓>140mmHg,下壓>90mmHg

High blood pressure: Systolic > 140mmHg, Diastolic > 90mmHg

肥胖:超重指標BMI >23 kg/m², 腰圍 > 90cm (男性) 或 腰圍 > 80cm(女性) Obesity: BMI >23 kg/m², Waist (Man) > 90cm or Waist (Woman) > 80cm

精神壓力

Stress

不良飲食習慣: 如高脂, 多鹽, 少蔬果類等

Bad eating habits: such as high fat, salty, less fruit and vegetables etc

缺乏運動:每周進行<2小時帶氧運動

Lack of physical activity: Aerobic exercise < 2 hours per week

家族史: 除遺傳外亦可能從家庭中習染以上不良因素

Family history: In addition to heredity, the above risk factors can also be "inherited" by family habits.

關於心血管疾病的8個事實: 8 facts of Cardiovascular Diseases:

- 2. 有1/10的心血管疾病死亡個案,因吸煙而成。 Smoking causes one-tenth of CVD deaths worldwide.
- 3. 每10個兒童就有1個肥胖,肥胖會增加日後患心血管疾病風險。
 1 in 10 school-aged children is estimated to be overweight.
 Childhood obesity will greatly increase the risk of CVD in adulthood.
- 4. 每年有大約860萬婦女因心臟病及中風而死亡。
 About 8.6 million women were dead of heart disease and stroke annually.
- 5. 有6成糖尿病病人因心血管疾病而死亡。 CVD accounts for around 60% death in people with diabetes.
- 6. 全球約有6成人缺乏體能活動,其死亡率比定期做體能活動的人高2至3成。 It is believed that more than 60% of people in the world are not sufficiently active. The risk of all-cause mortality in people that are physically inactive is 20-30% higher.
- 7. 全球約1/3的缺血性心臟病個案與高膽固醇有關。 One third of the world's ischaemic heart disease is attributable to high cholesterol.
- 8. 全球約5成的缺血性中風個案,因高血壓而成。 Hypertension causes around 50% of ischaemic stroke worldwide.

「世界心臟日」香港心臟基金會繪畫比賽

"World Heart Day" The Hong Kong Heart Foundation Drawing Competition

今年約有一千名中、小學生參加「世界心臟日」香港心臟基金會繪畫比賽,比賽以心臟健康為主題,十二歲以下學生屬於初級組、創作題目為「人人護心」健康倍增」,而十二至十七歲的高級組題目則為「健康習慣從小護心」。

This year, around 1,000 primary/secondary school students will join in promoting the importance of Heart Health by illustrating their ideas at the carnival. This year's competition is divided into two sections – the theme for the junior division (under 12 years of age) is "Building a Healthy Heart for Everyone" and the theme for the senior division (aged between 12 and 17) is "Healthy Heart Habits - Start from Youth".

高級組: 1:00pm — 3:00pm Senior Group: 1:00pm — 3:00pm 地點: 香港跑馬地馬場 Venue: Happy Valley Racecourse

初級組: 1:30pm — 3:30pm 参賽者: 香港中、小學生

Junior Group: 1:30pm — 3:30pm Contestants: Primary & Secondary Students in Hong Kong

心臟健康攤位設計比賽

World Heart Day Carnival Booth Competition

近年心臟病有年輕化的趨勢,因此本院希望透過不同類型的活動,讓更多年青人了解保護心臟要從「小」做起的道理。 有見及此,本年繼續舉辦「世界心臟日」心臟健康攤位設計比賽,由香港大學及香港中文大學兩大醫學院醫科生,組成兩組,於嘉年華會場內推廣與心臟健康有關的資訊,現場設有最佳攤位設計及最具人氣攤位兩個獎項,入場觀眾更可參與評分。希望同學們能於活動中加深對心臟健康的認識及關注。

In recent years, heart disease is affecting people in an earlier age and the College has made use of various activities to help youngsters care about their heart health. This year, World Heart Day continues to organize the World Heart Day Carnival Booth Competition. Both medical students from The University of Hong Kong and The Chinese University of Hong Kong formed two teams for the booth competition to promote heart health. There are two awards for this competition, The Best Design Booth and The Most Popular Booth. All the participants can join this competition and vote. We hope to enhance students' awareness of heart health during the competition.

日期 Date : 2016年11月13日 時間 Time : 1:30pm - 4:00pm

地點 Venue: 香港跑馬地馬場 Happy Valley Racecourse

心臟健康之選

World Heart Day Healthy Diet Campaign

世界心臟日2016特別推出「心臟健康之選」,特別邀請各大食肆參加,希望公眾能作出正確的「護心選擇」,以減低自己、家人及朋友的心血管疾病風險,從日常飲食開始,以「心臟健康之選」為標記,選擇更多對心臟有益的菜式,即使外出用膳亦有更多護心選擇。

Word Heart Day 2016 would like to encourage public to make healthy heart choices so as to help them to reduce their own cardiovascular disease risk and that of those around them. In this light, World Heart Day 2016 is launching the "World Heart Day Healthy Diet Campaign" and invited different restaurants to join, hoping the public can have more healthy heart choices when they eat out. Customers only have to look for the "World Heart Day Healthy Diet Campaign" logo to enjoy dishes that is good for heart health.

干人齊習急啟創紀錄

A Large Scale First Aid Lesson with over a Thousand of Participants

意外導致受傷甚至死亡隨時都有機會發生,如果能在意外發生後及時為傷者進行急救,便可大大增加復原的機會,尤其當患者心跳突然停頓時,能夠立即進行心肺復甦法(CPR)及使用自動體外心臟除顫器(AED),更有機會挽救寶貴的生命。香港心臟專科學院一向致力推動公眾對心臟病猝死的急救認知,並於二零一六年十月十日在小西灣體育館舉辦「千人齊習急救創紀錄」活動,鼓勵公眾及早學習相關知識與技巧,培養救人精神以及社會責任。

活動由食物及環境衛生局長高永文醫生太平紳士及「千人齊習急救創紀錄」愛心大使林子祥先生揭開序幕,為全場參加者打氣。同時,香港聖約翰救傷會講師亦即場教授基本急救知識、CPR及AED等技巧,並安排全場超過1,000名學生、家長及支持機構的參加者一同參與學習,成功締造千人齊習急救的紀錄,希望藉此機會,鼓勵市民「站出來」學習急救技巧,當遇上意外時,不單可以救己助人,更能為自己的生命賦予特別意義。

Accidents resulting in injury or even death can happen anytime anywhere. If victims could receive timely first-aid treatment, the chance of recovery would be increased. For victims suffering from a sudden cardiac arrest, early initiation of Cardiopulmonary Resuscitation (CPR) and application of Automated External Defibrillator (AED) can significantly improve their chance of survival. Learning first-aid can help to save lives. In order to promote the awareness and prevention of sudden cardiac arrest, Hong Kong College of Cardiology has organized "A Large Scale First Aid Lesson" on 10th October 2016 at Siu Sai Wan Sports Centre to encourage the public to learn first aid so as to cultivate a sense of social responsibility in Hong Kong.

The event began with the CPR & AED demonstration by the Guest of Honour, Dr. KO Wing-man, BBS, JP, Secretary for Food and Health, as well as our Ambassador Mr. George Lam at the stage. In the meantime, there were over 1,000 participants from schools and supporting organizations attended the training of basic first-aid, CPR and AED supported by Hong Kong St. John Ambulance Association. We hope that more citizens can be equipped with the skills to cope with daily emergencies and recognize the importance of saving lives.
